

ACADEMY OF MODEL AERONAUTICS
Application for 2010 Membership – One Individual Per Application
 5161 E. Memorial Dr., Muncie, Indiana 47302-9050, Fax: (765)741-0057, www.modelaircraft.org

Mr. Mrs. Ms. New Membership Renewing Member (provide AMA number if known) _____

First Name _____ Initial _____ Last Name _____

Mailing Address (number and street) _____ Apt. # _____

City _____ State _____ Zip Code _____

Home tel. (____) _____ Work tel. (____) _____ FAX (____) _____

E-mail has provided AMA with the opportunity to get information to our members in a timely cost-effective manner. AMA on occasion partners with reputable firms to promote products that will benefit both the member and the association. AMA does not trade or sell e-mail or mailing addresses.

E-mail _____

If you would prefer that we not include your name, please check the box(es) below.

Do not use my e-mail address for anything other than official AMA business.

Do not use my mailing address for anything other than official AMA business.

FOR OFFICE USE ONLY	

MEMBERSHIP CATEGORIES **Date of Birth (requested for all applicants)** _____

All membership categories receive full membership and competitive privileges, liability and accident/medical insurance.

Adult Memberships - For those 19 or over as of July 1, 2010

OPEN Membership \$58.00 *Model Aviation* included. Those 65 or over by July 1, 2010 may take a \$10.00 deduction in dues.

Open members can subscribe to our quarterly *Park Pilot* magazine - **\$9.95**

EXTRA Family Membership \$30.00 *Model Aviation* not included. (Applies to any one adult who resides in the same household as a current **OPEN** member.)

List current **OPEN** member's name and AMA number. Name _____ AMA# _____

PARK PILOT PROGRAM* \$29.95 *Park Pilot* magazine included. **Aircraft must not exceed 2 pounds, 60 mph, and may not be powered with an internal combustion engine. Does not have voting rights, cannot compete in competitions, and has reduced liability insurance and no accident/medical insurance.

Park Pilot members can subscribe to *Model Aviation* magazine - **\$36.00**

Youth Memberships - For those under 19 as of July 1, 2010

*Note: For competition purposes, YOUTH will be categorized as Junior (under 15 by July 1) or Senior (Those 15 by July 1 but not 19)

YOUTH Membership \$15.00 *Model Aviation* included.

YOUTH/NO MAGAZINE Membership \$1.00. *Model Aviation* not included.

For Non-U.S. Permanent Residents

AFFILIATE MEMBERSHIP \$28.00 insurance only while flying in the USA. *Model Aviation* not included. Membership in National Aero Club (NAC) is required. Please provide copy of NAC membership card/record.

Name of National Aero Club _____ Expiration Date _____

AFFILIATE MAGAZINE SUBSCRIPTION add **\$60.00** for a total of **\$88.00**.

**Canadian Residents:* AMA has a reciprocal agreement with MAAC. A current MAAC card will be honored at all sanctioned events or chartered club activities.

Recruiter Information: If you were recruited to join AMA by a member, AMA Club, or hobby shop, please indicate only one and list the name and AMA number (if known) so we can thank them.

Member – Name _____ AMA# _____

Club – Name _____ Club Charter # _____

Hobby Shop _____ Hobby Shop # (if applicable) _____

Area of Interest: Please select one Primary Interest then select one Area of Participation within your Primary Interest.

PAYMENT OPTIONS

VISA MasterCard Check enclosed Amount \$ _____

Card No. _____ Exp. Date ____/____/____ Signature _____

Please read and sign this declaration. Applications without a signature will be returned.

Note: This waiver means that if I am involved in any claim or suit I will not sue the AMA, Inc. I understand that this waiver does not affect my liability insurance coverage.

“I agree to comply with the AMA Safety Code for all applicable model operations. I understand that my failure to comply with the Safety Code may endanger my liability coverage for any damages or claims so caused. I further understand that written notice of the occurrence of any incident must be immediately provided.”
 “I am aware that modeling may present hazards to participants and spectators. I exempt, waive, and relieve the Academy of Model Aeronautics, Incorporated (AMA) from all current or future liability for personal injury, property damage, or wrongful death caused by negligence.”
 Signature of Applicant _____ Parent or Guardian of Applicant under age 18 must also sign _____

Membership ends each year on December 31, regardless of the date a membership application is received. All membership benefits begin on the day of receipt at AMA Headquarters of a properly completed application and correct dues payment. Applications received after September 15 will be valid for the remainder of that year and all of the following year. If a magazine is included with the membership, it begins with the first issue available for the year after a correct current application and payment are received; it expires with the issue printed in December (which is dated January of the following year). Membership rates and insurance limits are those in effect at the time of printing. Actual cost of dues and amount of insurance coverage is subject to change. Any such changes will be noted at the time of membership processing so they may be accepted or not.

ONLY ONE APPLICATION PER FORM

Academy of Model Aeronautics
National Model Aircraft Safety Code
Effective January 1, 2010

GENERAL

A model aircraft shall be defined as a non-human-carrying aircraft capable of sustained flight in the atmosphere. It may not exceed limitations established in this code and is intended to be used exclusively for sport, recreation, and/or competition.

1. I will not willfully fly my model aircraft in a careless or reckless manner, and will abide by this Safety Code and any additional rules specific to flying sites.
2. I will yield the right-of-way to man-carrying aircraft and will see and avoid all aircraft, utilizing a spotter when appropriate. (See AMA Document #540-D on See and Avoid Guidance.)
3. I will not fly my model aircraft higher than approximately 400 feet above ground level, when within three (3) miles of an airport without notifying the airport operator.
4. The maximum takeoff weight of a model aircraft, including fuel, is 55 pounds, except for those flown under the AMA Experimental Aircraft Rules.
5. I will not fly my model aircraft in sanctioned events, air shows, or model demonstrations unless I have previously proven that my aircraft, control system, and piloting skills are adequate by successfully executing all maneuvers intended or anticipated in the specific event. If I am not a proficient pilot, I will not fly in these events unless assisted by an experienced pilot.
6. I will not fly my model aircraft unless it is identified with my name and address, or AMA number, inside or affixed to the outside of the model aircraft. This does not apply to model aircraft flown indoors.
7. I will not operate model aircraft with metal-blade propellers.
8. I will not operate model aircraft carrying pyrotechnic devices which explode or burn, or any device, which propels a projectile of any kind. Exceptions include Free Flight fuses or devices that burn producing smoke and are securely attached to the model aircraft during flight. Rocket motors up to a G-series size may be used, provided they remain firmly attached to the model aircraft during flight. Model rockets may be flown in accordance with the National Model Rocketry Safety Code; however, they may not be launched from model aircraft. Officially designated AMA Air Show Teams (AST) are authorized to use devices and practices as defined within the Team AMA Program Document.
9. I will not operate my model aircraft while under the influence of alcohol or while using any drug which could adversely affect my ability to safely control the model.
10. When and where required by rule, helmets must be properly worn and fastened. They must be OSHA, DOT, ANSI, SNELL or NOCSAE approved or comply with comparable standards.

RADIO CONTROL

1. All pilots shall avoid flying models over unprotected people.
2. I will complete a successful radio equipment ground-range check in accordance with the manufacturer's recommendations before the first flight of a new or repaired aircraft.
3. At all flying sites a safety line or lines must be established, in front of which all flying takes place. Only personnel associated with flying the model aircraft are allowed at or in front of the safety line. In the case of air shows or demonstrations a straight safety line must be established. An area away from the safety line must be maintained for spectators. Intentional flying behind the safety line is prohibited. (See AMA Document #706 for Recommended Field Layout.)
4. I will operate my model aircraft using only radio-control frequencies currently allowed by the Federal Communications Commission (FCC). Only individuals properly licensed by the FCC are authorized to operate equipment on Amateur Band frequencies.
5. I will not knowingly operate my model aircraft within three (3) miles of any preexisting flying site without a frequency-management agreement. (See AMA Document #922 for Testing for RF Interference. See AMA Document #923 for Frequency Management Agreement.)
6. With the exception of events flown under official AMA Competition Regulations rules, excluding takeoff and landing, no powered model may be flown outdoors closer than 25 feet to any individual, except for the pilot and the pilot's helper(s) located at the flight line.
7. Under no circumstances may a pilot or other person touch a model aircraft in flight while it is still under power, except to divert it from striking an individual. **This does not apply to model aircraft flown indoors.**
8. Radio-controlled night flying requires a lighting system that provides the pilot with a clear view of the model's attitude and orientation at all times.
9. The operator of a radio-controlled model aircraft shall control it during the entire flight, maintaining visual contact without enhancement other than by corrective lenses that are prescribed for the pilot. **First-Person View (FPV) flying may only be conducted in accordance with the procedures outlined in AMA Document #550.**

FREE FLIGHT

1. I will not launch my model aircraft unless I am at least 100 feet downwind of spectators and automobile parking.
2. I will not fly my model aircraft unless the launch area is clear of all individuals except my mechanic, officials, and other fliers.
3. I will use an effective device to extinguish any fuse on the model aircraft after the fuse has completed its function.

CONTROL LINE

1. I will subject my complete control system (including the safety thong where applicable) to an inspection and pull test prior to flying. The pull test will be in accordance with the current Competition Regulations for the applicable model aircraft category. Model aircraft not fitting a specific category shall use those pull-test requirements as indicated for Control Line Precision Aerobatics.
2. I will ensure that my flying area is clear of all utility wires or poles and I will not fly a model aircraft closer than 50 feet to any above-ground electric utility lines.
3. I will ensure that my flying area is clear of all nonessential participants and spectators before permitting my engine to be started.

Specialized AMA Documents:

Radio Control Combat (#525)
General Radio Control Racing (#530)
Giant Scale Radio Control Racing (#515-A)
Gas Turbine Operation (note: Special Waiver Required) (#510-A)
Park Flyer Safe Operating Recommendations (#545)
First Person View (FPV) Operations (#550)

Recommended Field Layout (#706)
Procedure for RF Interference Testing between Model Sites (#922)
Frequency Management Agreements (#923)
See and Avoid Guidance (#540-D)
Team AMA Air Show Safety Document (#718)

These special codes and appropriate documents may be obtained either from the AMA Web site at www.modelaircraft.org or by contacting AMA Headquarters.
